INTER-OFFICE CORRESPONDENCE
RICHMOND, VIRGINIA

To: Mr. E. M. Schauf Date: June 25, 1976
From: E. A. Christopher
Subject: Parliament "H" Test Market

The attached report indicates, out of specification, tars on Parliament 100's "H" and Parliament Long Size "H". The following corrective action is being taken.

1. Parliament 100's "H" - R&D is working on a filter change to achieve a F.T.C. target of 11.5 milligrams.
2. Parliament Long Size "H" - Initial production on this cigarette used 137-1 cigarette paper. This paper has now been changed to 110-6.
3. Parliament King Size "H" - This cigarette is within specification range but on the high side of the target. The dilution will be increased on subsequent runs in order to move closer to the target.
